EDUCATION

The Hong Kong University of Science and Technology (HKUST) **Hong Kong, Sep 2023 – June 2027**
BEng Computer Science + Extended Major in Artificial Intelligence – First Class Honours (Expected)

- CGPA: 3.943/4.3 | Top 1% of HKUST Undergraduates | 3x Dean's List | HKUST Full Scholarship Admission Holder
- Relevant Modules: DBMS (A+), Programming with C++ (A+), OOP & Data Structures (A), Applied Statistics (A), Calculus II (A)

Methodist College Kuala Lumpur **Malaysia, Jan 2022 – June 2023**

- Awards: Top in Malaysia in A-Levels Mathematics | Ranked 1st in Computer Science and Mathematics within the cohort

WORK EXPERIENCE

Zonic Tech – Incoming Full Stack AI Engineer Intern **Hong Kong, June 2025 – Aug 2025**

- In charge of backend and API development, AI tool building, integration of video understanding modules, and assisting in real-world deployment and optimization of AI agent workflows.

Comptify Analytics – Analyst Programmer Intern **Hong Kong, June 2024 – Aug 2024**

- Spearheaded the development of an *SMTP*-based email verification tool using *Python* that identified 60% of invalid email addresses from the online-collected contact list, allowing the company to focus marketing efforts on the remaining 40% of potential clients.
- Initiated the development of a full-stack director remuneration analytics platform using *.NET framework* and *C#*, integrating *jQuery*, *HTML*, *Bootstrap* and *MySQL*, leveraging market data to analyse compensation trends and deliver strategic recommendations for clients to optimise their executive pay strategies.
- Proposed and executed the launching of a customizable comparison tool enabling clients, comprised of over 1,000 multinational companies, to benchmark their executive compensation against publicly listed companies of their choice, boosting company's revenue via a subscription-based model.

Zonic Tech – Frontend Developer Intern **Hong Kong, Dec 2023 – Jan 2024**

- Reconstructed the front-end of the website using *ReactJS*, enhancing user experience through the implementation of an intuitive user interface and the integration of key features utilizing *React Material UI* & *React Storybook*.
- Contributed to the development process by participating in code reviews, offering constructive feedback for code optimisation.

EXTRA-CURRICULARS

HKUST Computer Science Department - Undergraduate Teaching Assistant **Hong Kong, Jan 2025 – Present**

- Provided guidance on *C++* syntax and programming logic to 510 students in the Programming with *C++* course, while assisting them in comprehending core computer science concepts, including pointers, dynamic memory allocation, object-oriented programming, and data structures.

Hong Kong Malaysian Student Association – Lead Webmaster **Hong Kong, Dec 2024 – Present**

- Led a team of 5 developers to revamp the web application by updating and creating profiles for board members, enhancing user information accessibility using *ReactJS*

HKUST Southeast Asia Student Association – Internal Vice President **Hong Kong, Mar 2024 – Mar 2025**

- Led the coordination with the university administration, including event promotion, proposal development, and collaborative event organization, to successfully host a pre-university arrival program that engaged 60 incoming university students.
- Co-led the annual sports day, generating 1,000 HKD in revenue and enhancing community engagement among students.

PROJECTS

FoodMates – Head Backend Engineer

- Developed a full stack mobile application designed for university students to order food and have other students deliver to them.
- Utilised **PostgreSQL** and **Firestore** for data storage, **Flask** for a **RESTful API** backend, and **Postman** for API testing.
